

## Local Intelligence.

THOMSON is to have a new daily newspaper, rumor says.

Four bars of bullion were shipped from the Harshaw mill on Tuesday.

The Contention mill shipped on Tuesday five bars of bullion, valued at \$15,500.

O. D. CONTERO, of Los Angeles, arrived in Tucson last Tuesday. He is on a prospecting trip.

SOME beautiful specimens of ore have been received by Weimore & Co. from near Casa Grande, which assays \$800 per ton.

DON LEONARDO CARRILLO is erecting a new block of buildings at the corner of Ochoa and Gay alley. They are being built of adobe.

J. A. PETTIGREW, Deputy Sheriff at Arivaca, has sold his butcher shop, and in about a month will take charge of a band of sheep destined for Texas.

A WASHINGTON dispatch of the 13th to the Chicago Tribune, says J. C. Cien, of Mattoon, Illinois, is to receive a Territorial appointment for Arizona.

A DISPATCH from Calistoga, California, says that the remains of the ill-fated stage driver, El Philpot, were interred there on Tuesday. The funeral was largely attended.

THE Arizona postal changes for the week are as follows: Discontinued, Westfield, Maricopa county, is changed. Terminus, Pima county, to Denning.

MR. MOODY will go East by way of Arizona. That region will try his gold mines. He can try a Tucson blanket in the warm season without wearing his true Christian—[Alta.]

THE agent of the Arivaca stage requires all persons going out by that line to register for passage in the evening, to avoid confusion and delay in starting on time in the morning.

SENATOR NORWOOD, of Georgia, has purchased of A. C. Rogers one-half of the Copper Chief and one-quarter of the Santa Rita mines, in the Santa Rita Mountains, for \$100,000.

COLONEL W. H. HAMPTON succeeds Mr. Longfellow as agent of the Southern Pacific Railroad at this place. Mr. Hampton has considerable experience in the business, and is an agreeable and accommodating gentleman.

MAJOR WHITSON, who established Fort Huachuca four years ago, has been granted leave of absence for one year, and after a few weeks' stay in Los Angeles, will start for a tour through Europe. A host of friends in Arizona wish him a pleasant journey.

TWO horses were stolen from Mr. Manco, who drives one of the water-supply wagons, on Wednesday night. With the aid of an Indian trail, he found the animals tied in the bushes near the mountains beyond the city.

A. J. FINLAY has in this morning from the front. He is the railroad agent at the terminus, and his thorough efficiency renders his services very valuable to the company. He purchased a dog to-day to take out with him.

THERE has been much heavy grading on the Southern Pacific road near the Rio Grande, which has for a time delayed track-laying. The work was again resumed yesterday, and 4000 feet of rails laid. After crossing the river track-laying will proceed very rapidly, owing to the level formation of the country beyond.

THE Atchison, Topeka and Santa Fe Railroad Company took up a quantity of Government land at Denning for depot purposes and fenced it in. A large number of squatters have broken through the fence and pitched their tents on the company's lands, and trouble is anticipated in their ejectment.

THE Sonora merchants who were the unfortunate victims of the double-decker "clampons" of the Mexican dollar have purchased most of their goods of L. Zickendorf & Co. The mock auction of doing business has but little attraction for the Mexicans, and such an outrageous fraud as they received at the hands of L. Meyer & Co.

MR. H. B. MAXSON has just returned from Sonora, and has recently secured some very fine mines at Oro Blanco for Philadelphia parties, and then went to the headwaters of the Altar river to see properties in which he will become interested. He leaves for Tombstone to-morrow morning.

THE 7500 sheep bought recently by Mr. Martin from Pedro Aguirre, at Arivaca, will remain at San Simon until the lambing is over, and then be driven to Texas. The trip will take about ten months. Mr. Martin was unlucky enough to have 1200 sheep stray off, and though he offered a reward of \$250, no trace of them has yet been found.

THE prisoners confined in the county jail complained of the quantity and quality of food furnished them. They say the bread is bulky, but very light in weight, and the beef is too tough to masticate. The matter should be looked into, for however justly they may be incarcerated, it is inhuman to deprive them of a sufficient quantity of wholesome, nourishing food.

TOMMY GATES came in from Silver Hill Tuesday for a further supply of tools to work the mines of the Abbie Mining Company composed of himself, John Murphy and Dave Gibson. They have a shaft down 25 feet, all of good carbonate ore. They are taking out no waste material from their mine. At 18 feet the assays averaged about the ledge, \$90 per ton. Mr. Gates returns to the mines to-morrow.

THE Southern Pacific Company has just installed a competent and popular agent at Denning, and in doing so has taken an old and well known citizen of Pima county—Mr. C. H. Naylor, popularly known as Charley Naylor. Mr. Naylor has for many years been connected with the Colorado river transportation business, and on the advent of the railroad became an employee of the company. After several attempts to get a competent agent at Maricopa the company sent Mr. Naylor there, and he straightened the business out, and kept it so. Denning is a most important station. At present it has little local business, but is the transfer station for all overland business, and corresponds on that point to Ogden on the Central Pacific. This local for Mr. Naylor is a very high compliment to his efficiency and integrity.

## Personal Points.

L. T. FARR came in from Arivaca on Tuesday.

Bishop Salpointe has returned from his visit to Phoenix and Tempe.

Mr. Pedro Aguirre and family, of Arivaca, have started East on a pleasure trip.

Ben. Hoskins, of the firm of Hoskins & Thacher, Oro Blanco, is in Tucson.

Colonel Ben. Hereford left this morning for a business trip to Shakespear, New Mexico.

Mr. Phil H. Kirby, agent for the Robert McWade Drastic Company, will leave for Tombstone to-morrow.

Mr. Ira A. Carter got back from the Santa Catalinas last night, and will start out again to-morrow morning.

Mr. Atkinson, formerly operator in the Western Union telegraph office at Arivaca, has got back from San Francisco to look after his mining interests.

J. C. Perry left this morning for a trip to Harshaw and Tombstone.

D. G. Tipton, of California, is negotiating for mining property in the Santa Rita mountains.

Chris Lee, of Globe, is here, on his way to Tombstone to take a position in the Toug Nut.

John Weigle has returned from Los Angeles, and will at once resume work upon his Santa Rita mines.

Frank MacCrellish has gone to San Francisco with his health much improved.

Mrs. C. E. Holbrook and Mrs. J. C. Handy will return to Tucson on Sunday morning's train.

Messrs. J. Neugass, B. M. Jacobs and C. E. Holbrook will spend a portion of the summer months in San Francisco, leaving Tucson, about the 1st of June.

Thomas M. Cash, formerly the railway agent at Tucson, is now employed as the private secretary of J. C. Stubbs, General Superintendent of the S. P. R. R.

HARRY WOODS has been appointed Under Sheriff.

Wehrhitz & Tribolet are having a 30x40 adobe building erected, two stories high.

A miner named Handley was brought in from the Huachuca on Sunday in a dying condition.

D. D. Moriarty has returned from his visit to Philadelphia.

E. P. Parker, of Joyce & Co., left on Sunday for New Mexico.

A. Bauer, has broken ground for the erection of his brewery.

J. B. Smithman, of Oil City, Pennsylvania, is on a tour of inspection through this camp.

CHARLES GOODMAN has left for the East.

N. Ross has returned from a two months' visit East.

G. M. F. Herrett is building a residence on Washington street.

H. Goldberg has gone to San Bernardino.

P. H. Quinn, of Fort McDowell, will make Phenix his home.

Rube Thomas is about to build a residence.

Edwin Porter, brother of Judge De Forest Porter, has arrived from Rochester, New York.

FRANK BARTH has been brought in from the Hassayampa very sick.

AL. DAKA has returned from his trip to Michigan, where he went with the five condemned Mexican revolutionists.

MR. GEORGE CLARK, who formerly owned the Model mine in Peeples valley, has just made a sale of the Oriental, Continental, Success and other large mines, four in number, situated in Turkey Creek District, to a New York company for \$100,000, \$25,000 of which was paid to-day through a San Francisco bank.

KNIGHTS OF PYTHIAS. Tucson Lodge, No. 3, Knights of Pythias, was instituted Tuesday by Deputy Supreme Chancellor H. Buck, of Prescott. The following officers were installed: P. C. M. Gratto; C. C. J. A. Zabriskie; V. C. J. H. Harrison; P. J. C. Perry; M. E. H. Brown; T. Brown; M. F. C. R. Drake; K. of R. and S. H. D. Corbett; M. A. C. Kresham; I. G. A. Goodman; O. G. D. Felix.

AFTER the installation of the members of the order assembled at Mr. Wm. Zickendorf's counting room, with the invited guests from other secret orders, and at the time appointed marched to the banquet hall at the Cosmopolitan Hotel. The decorations were here handsome and tastefully arranged, the national colors adorning the walls of the room, and the tables beautified with all the rare artistic productions of the skill of Antonio Pirani could produce. The tempting viands rapidly disappeared for a time, and speaking was commenced, inspiring the guests with a profusion of sentiment, mingled with scintillations of appreciated wit. Colonel James A. Zabriskie presided, and did the honors with his characteristic courtesy, ability and dignity, uttering a genuine fraternal feeling among all present. Toasts innumerable were drunk, and felicitous responses made by many of the brethren present. The excellent remarks of Messrs. Zabriskie, Holbrook, Benig, Corbett, Wickes, Black and Drake, upon the origin, aims and progress of the several orders were well chosen, and served to bring the brethren closer together in fraternal love, and impressed upon their minds the holy attributes taught by precept and example in the lodge room, where the truly good are always made better men. The occasion was one which opens the stern heart of man toward his fellowman, and warms the human sympathies into an affection akin to gold.

THROUGHOUT the long hours of the night, until the first rays of dawn were almost awakening, a harmonious interest was maintained, and the banquet closed by all joining hands and singing "Auld Lang Syne," "Home, Sweet Home" and "America."

AMONG those present were: Messrs. Henry Buck, M. Gratto, J. A. Zabriskie, J. H. Harrison, Joseph C. Perry, M. T. Brown, Joseph Bayer, Charles P. Drake, H. D. Corbett, J. C. Hamilton, Charles Kresham, E. O'Leary, A. Goodman, D. Felix, A. M. Bragg, A. Marx, Solon M. Allis, Thid. Welsh, Henry Wickes, P. Ford, W. M. Blaine, Henry Boehman, H. C. Kiesel, John Hart, Geo. F. Meek, H. G. Balcom, M. J. L. Lane, J. M. Berg, Dr. Holbrook, Frank Mittenberg, R. Heinemann, C. Shubell.

GEN. ALLEN returned by private conveyance from Bisbee to-day. He states that the Copper Queen has developed a fine supply of water by sinking a well, and will at once erect another furnace.

## A Legal Romance.

A lawyer of Tucson has received a power of attorney from an unsuccessful lover living a score of miles from the city, to woo the object of his tender affections and secure for him a promise of marriage, stipulating a handsome fee if successful. This is a rather novel method of seeking the matrimonial net, but it has its advantages—for the attorney. So far as he has progressed at this writing he rather enjoys his commission, and being persuasive and insinuating, besides rather prepossessing in appearance, he has developed already a good of tenderness toward his client which will probably blossom into the full fruition of his most ardent hopes. Of course the attorney is expected to leave melancholy sighs when absent from his side, and restlessly on his lonely pillow at night, and perhaps the attorney is not yet known how he will play the more intimate relations of the enamored swain—the love-lit gaze, the tender pressure of the shapely hand, the spontaneous delicate compliments and bouled words, and perhaps the spasmodic hug and stolen kiss—yet they all undoubtedly enter into the wily diplomacy employed to subvert the interests of his confiding client. Unless some unforeseen calamity should upset his calculations, he hopes soon to bring the case to a successful issue, satisfied alike with the prospective intrinsic fee on one hand and the delightful courting emoluments on the other.

THE District Clerk's office needs a safe and vault for official books and papers. All matters were in good shape and business like.

THE County Hospital was managed with great skill and care by the Sisters of Mercy, the physician attentive, the Coroner diligent, and the Administrator capable and efficient.

THE treasury was found in a prime condition, and contained the following amounts on hand belonging to the different funds:

County general fund	\$2,500.00
County consolidated fund	1,200.00
County school fund	1,200.00
Territorial general fund	1,200.00
Territorial school fund	1,200.00
Territorial prison fund	1,200.00
County fund	1,200.00
Total on hand	\$2,500.00

THE District Attorney had collected \$1,642.50 of delinquent taxes in a faithful manner.

THE Justices of the Peace should place witnesses under bonds to appear at trials.

THE Recorder's office was maintained in an excellent condition, recommended the purchase of new index books to mining claims.

THE Probate Judge's matters were all fair and square, and the public schools elicited their warmest commendations. They found 324 scholars in attendance, and report a mutual regard and friendship between teachers and pupils, and all the public schools, as now conducted, are something Tucson can well be proud of.

THE Albatross, owned by Messrs. Long & Wores, now shows a nine-foot ledge of solid ore, assaying an average of over \$100 per ton. This mine has been recently bonded to Mr. Sevens.

MR. SOL. SCHWAB, who got in from the Silver Bell District last Sunday, is enthusiastic over the prospects of that camp. The Old Boot mine, owned by the Huachuca Mining Company, has a 100-foot tunnel into the ledge, showing a 35-foot vein of ore yielding from 35 to 50 per cent. copper. Over 1200 tons of ore are now on the dump, awaiting the erection of a smelter, which will be in place within thirty days. Mr. W. B. Scott, the Superintendent, is erecting a residence about one and a half miles from the mine. The scenery is described as delightful and the climate unsurpassed. Prospectors are flocking in rapidly, and the stage line has all the work it can attend to. Mr. Wm. Zickendorf's store is doing a thriving trade with the miners. A large restaurant has been established, where excellent meals can be procured. The prospects of the camp are indeed flattering, and the boom has evidently reached there.

MR. SOL. SCHWAB, who got in from the Silver Bell District last Sunday, is enthusiastic over the prospects of that camp. The Old Boot mine, owned by the Huachuca Mining Company, has a 100-foot tunnel into the ledge, showing a 35-foot vein of ore yielding from 35 to 50 per cent. copper. Over 1200 tons of ore are now on the dump, awaiting the erection of a smelter, which will be in place within thirty days. Mr. W. B. Scott, the Superintendent, is erecting a residence about one and a half miles from the mine. The scenery is described as delightful and the climate unsurpassed. Prospectors are flocking in rapidly, and the stage line has all the work it can attend to. Mr. Wm. Zickendorf's store is doing a thriving trade with the miners. A large restaurant has been established, where excellent meals can be procured. The prospects of the camp are indeed flattering, and the boom has evidently reached there.

## Recommendations by the Grand Jury.

The Grand Jury, in their reports concerning the condition of the various public offices, found matters substantially as follows:

The books, accounts and methods in use in the Sheriff's office were in first class order, and the duties efficiently attended to.

The county jail was thought to be improperly arranged, unsafe and expensive to maintain. They recommended the purchase of the adjoining lot on the east and that a new jail be erected.

The courthouse was
